

THE AI BESTIE

AI tutorials even your mom can understand

LESSON 15

If You're Not Using Fable 5 to Build Your Brand, You're Already Behind

Fable 5 is the **smartest AI ever made** — and it's free until July 19. Here's exactly how to catch up.

FREE
until
Jul 19

Do it in 5 steps

Free, and about 10 minutes. Tap any black box to copy.

1

Open Claude

Open Chrome or Safari and go to Claude. Sign in (or make a free account) — this is where Fable 5 lives.

OPEN IN YOUR BROWSER

copy

claude.ai

2

Switch to Fable 5

At the **top of the chat**, tap the **model name** and choose **Fable 5** — the smartest one. It's the free upgrade, until July 19.

Where's the switcher? It's the little model name right above (or beside) the message box — tap it to open the list, then pick **Fable 5**. Your normal model is a smart intern; this one is the genius.

3

Let it find your angle

Don't dump everything — let Fable 5 **interview you** and pull out what makes you, you. Paste this and just answer honestly:

PASTE THIS PROMPT

 copy

*You are my **personal brand strategist**. Interview me to find out what makes me special and what my brand should be. Ask me one or two questions at a time, not a big list. Dig deeper when my answer is interesting or vague. After about 8 to 10 questions, stop and give me: (1) my core brand idea in one sentence, (2) the 3 things I stand for, (3) who I am for, (4) what I sound like, and (5) **5 content ideas that only I could make**. Keep everything in simple, plain words. No jargon.*

4

Get a full week of posts in your voice

Same chat — it builds on the brand it just found and writes in *your* voice, not a generic one.

PASTE THIS PROMPT

 copy

*Now be my **ghostwriter**. Use my core brand idea, the 3 things I stand for, and the way I sound from above. First, ask me which platform I post on and ask me to **paste one thing I've already written** so you can copy my voice. Then write me a **full week of posts**, one for each day, rotating through my 3 things. For each post give me a first line that stops the scroll, a short story or point in the middle, and a simple question at the end that makes people want to comment. Make it sound exactly like me. Plain words, no corporate voice.*

5

Build your personal website

Still the same chat — it turns your brand and posts into a real site.

PASTE THIS PROMPT

 copy

*Now be my **web designer**. Use my brand idea, my 3 things, and my best posts from this week. First, ask me for my name, my links, and one word for the vibe I want. Then build me a **complete one-page personal website** I can put online today. Include a big headline based on my brand idea, a short 'about me' in my own voice, a section for each of my 3 things, and one clear button that tells people what to do next. Make it look modern and work on phones. **Show me the full code**, then tell me in plain steps how to put it online.*

watch it build the whole thing for you.

Why Fable 5, not your usual AI

Same Claude family — but Fable 5 plays a completely different game.

Your usual model

A **smart intern**. Helpful and quick — but you have to hold its hand and spell out every step.

good helper

Fable 5

The **genius partner** who thinks **three steps ahead** — it builds the whole brand, not just the thing you asked for.

thinks ahead

VS

+90%

More creative

In copy, design and ideas — it goes places everyday models won't.

3 steps

Ahead, not behind

It plans your whole brand, not just one post at a time.

10x

The nuance

It captures *your* voice — not a flat, generic version.

Same prompt, different worlds

Ask both “**build my personal brand.**” A normal model hands you a **plain page and a few generic captions**. Fable 5 hands you a **positioning angle, a styled website, and a full week of posts in your voice** — because it thought three steps ahead.

“The people who move now are the ones who win. Don't be the girl who finds out on July 20.”

— Wendy, your AI Bestie

Don't wait for July 20

A brand strategist, a writer, and a web designer — free until July 19.

Move now. Win now.

Fable 5 is **free until July 19**. After that, the people who moved early already have their **posts, their site, and their edge**. Be one of them.
